

# National Capability Statement

See clearly. Act boldly.

At Lucid, our purpose is simple:

# Creating a better world

We exist to help clients navigate complexity, design responsibly, and build lasting value – for their projects, their communities, and the generations to come.

Our vision is to be Australia's most forward-thinking, agile, and influential engineers and asset advisors.

Together with our clients, we design solutions that are as considered as they are effective – clear, creative answers to complex problems.

Less assumption. More assurance. Less uncertainty.  
More Lucid action.

As an employee-owned business, we take pride in showing up with clarity, curiosity, and a genuine commitment to doing better – together.

Asset Advisory Services

# Where we make an impact

Lucid operates across the entire asset lifecycle, helping you plan, design, deliver, and manage with clarity and confidence. We combine capability with deep industry focus. Our work supports the spaces people rely on every day – to live securely, stay connected, and prosper.

# Where we make an impact

## Defence

Lucid's Defence team supports critical national projects across air, land, and sea – helping to equip tomorrow's forces and support Australia's security and resilience. We have trusted relationships with the Commonwealth, State agencies, and leading industry partners, delivering strategic infrastructure and sustainable outcomes.

## Health

Lucid's national health team brings deep experience across master planning, asset management, electrification, and complex systems design – spanning specialised environments such as hospital, paediatrics, neonatal, surgical, and mental health facilities.

## Resources

Lucid supports remote, operationally complex, and safety-critical sites – designing and optimising the critical systems and spaces that keep site operations running. We create the living and working spaces that support remote work-forces well-being, performance, and continuity.

# Where we make an impact

## Government & Civic

Lucid supports government clients across some of Australia's most critical infrastructure – from international airports and major rail networks to justice, corrections, and civic facilities. These environments demand complex coordination, long-term planning, and strict compliance, alongside deep consideration for community outcomes and operational continuity.

## Education

Lucid works across the full lifecycle, from early learning and schools to universities, TAFEs, and training facilities – supporting the need for high-quality, sustainable learning spaces. We help education providers upgrade ageing buildings, deliver efficient new developments, and create future-ready environments for learning.

## Property, Industrial & Buildings

Lucid's national team brings multidisciplinary expertise to complex developments – from mixed-use precincts, commercial offices, industrial buildings, storage facilities, and data centres. We work alongside architects, developers, builders, and fit-out specialists to deliver elegant, efficient, and future-ready spaces.

Our capabilities

# Clear thinking. Integrated delivery. Local insight.

Lucid brings together a national network of engineering and advisory specialists – working as one interconnected team to deliver smart, practical outcomes across Australia.

Our team are embedded in their industries and communities, providing direct, on-the-ground support backed by the scale and technical depth of a national business. Whether you're planning a new facility, upgrading existing infrastructure, or solving complex systems challenges, we offer integrated capabilities that bring clarity to complexity and confidence to every stage of delivery.

# Our integrated capabilities include:

## Asset Advisory

Lucid's Asset Advisory team helps clients make smarter decisions across the full asset lifecycle. Our services include Asset Management Consultancy, Acoustic Consultancy, Energy & Sustainability, Fire Safety, and Digital Engineering (BIM). We work with you to optimise performance, reduce risk, and unlock long-term value.

## Building Services Engineering

Lucid delivers integrated building services across a range of sectors. Our capabilities include Mechanical, Electrical, Hydraulic, and Fire Services Engineering, as well as Fire Safety, Acoustics, Sustainability, and Digital Engineering (BIM). We work with clients, architects, and builders to design future-ready buildings.

## Project Governance & Delivery

From early-stage planning to final delivery, Lucid's Program Management capability provides the structure and oversight to keep major programs on track. Our services span Project Management, Design Management, and Engineering Infrastructure.

# Our integrated capabilities include:

## Infrastructure

Our Infrastructure capability includes Industrial Power, Structural Engineering, and Digital Engineering (BIM). Lucid supports essential infrastructure projects across transport, energy, utilities, and regional development.

## Energy & Sustainability

Lucid's Energy & Sustainability team partners with clients to create low-carbon environments. Our expertise spans renewable energy planning, decarbonisation, climate risk assessments, and smart infrastructure. From achieving Green Star and NABERS certifications to net-zero strategies, we deliver clear, actionable pathways.

A photograph of a group of people in a meeting room. In the center, a man in a dark suit and white shirt is smiling and looking towards the right. To his left, a woman in a dark top is also smiling. To his right, another man is partially visible, looking towards the center. The background is slightly blurred, showing other people and office elements like a plant and a window. A large, semi-transparent white rectangle covers the central portion of the image, containing the text.

# Our Leadership

# Enterprise Leaders

**Paul Billingham –  
Chair**

Joining Lucid's board in 2021, Paul brings deep financial, strategy, and governance expertise. Paul's experience in growing national advisory businesses and shaping executive strategy supports Lucid's ongoing growth and governance focus.

**Jarrad Clift – CEO**

As Chief Executive Officer, Jarrad is responsible for Lucid's strategy – focused on creating a better world for our clients, people and communities.

[jarrad.clift@lucidconsulting.com.au](mailto:jarrad.clift@lucidconsulting.com.au)

**Vanessa McPherson –  
People & Culture**

As National People & Culture Leader, Vanessa leads Lucid's people strategy, creating an environment where individuals can grow, contribute, and thrive.

[vanessa.mcpherson@lucidconsulting.com.au](mailto:vanessa.mcpherson@lucidconsulting.com.au)

**Adam Greaves – Technology  
& Innovation Lead**

With a key focus on technology and innovation, Adam oversees Lucid's systems and partnerships, enabling smarter delivery, stronger data security, and operations that are future-ready.

[adam.greaves@lucidconsulting.com.au](mailto:adam.greaves@lucidconsulting.com.au)

# Enterprise Leaders

**Cath Hale –  
Clients & Markets**

Cath is focussed on Lucid's client strategy, sector programs, business development, and marketing. Her focus is on strengthening how we partner with clients.

[catherine.hale@lucidconsulting.com.au](mailto:catherine.hale@lucidconsulting.com.au)

**Daniel Kisgyano –  
Operations Lead**

Daniel oversees Lucid's core engineering services and the delivery of strategic priorities across our regional offices.

[daniel.kisgyano@lucidconsulting.com.au](mailto:daniel.kisgyano@lucidconsulting.com.au)

**Sean Burton –  
Finance Lead**

As National Finance Lead, Sean oversees Lucid's financial operations, including planning, risk management, and regulatory compliance.

[sean.burton@lucidconsulting.com.au](mailto:sean.burton@lucidconsulting.com.au)

## Our Client Experience

# Less uncertainty. More Lucid action.

At Lucid, we don't just join your team – we immerse ourselves in your challenges. We ask better questions early, think beyond the obvious, and shape practical, forward-thinking solutions.

Clients tell us it feels different from day one. That's because we work as a true extension of your team – responsive, honest, and invested in outcomes that last. Our ownership model drives that commitment, with people who care deeply about getting it right.

Together, we simplify complexity, adapt as things evolve, and help you move forward with clarity and confidence. It's a deeper way of thinking and a better way of working, built on real partnership.

This mindset has earned us the trust of clients across defence, health, education, transport, commercial, and resources – from fully electric hospitals to remote infrastructure, world-first buildings, and national programs. The work below reflects not just what we've delivered, but how we work alongside our clients to make it happen.

# Our Client Experience

## BHP Olympic Dam – Safer, Smarter Site Infrastructure

Client: BHP Olympic Dam  
Location: Olympic Dam, SA / Kokatha Country

**\$100M+**

## EXPERIENCE HIGHLIGHTS

### New Women's and Children's Hospital – Masterplan, Site Analysis & Detailed Design

Client: SA Health / Women's and Children's Health Network / Lendlease  
Location: Adelaide / Kaurna Country, South Australia

#### Services provided

- Masterplanning
- Site Infrastructure Analysis
- Mechanical Engineering
- Electrical Engineering
- Fire Safety
- Fire Services Engineering
- Audio Visual & ICT Systems
- Hydraulic Engineering
- Energy & Sustainability
- Digital | BIM

#### Project description

The New Women's and Children's Hospital (nWCH) is South Australia's largest ever public infrastructure investment – a \$3.2 billion tertiary care facility designed to deliver world-class healthcare for babies, children, young people, women, and families across the state.

Before design could begin, the project required a rapid, evidence-based masterplanning process to determine the most suitable site. With multiple options under consideration, each with complex planning, infrastructure, and stakeholder implications, Lucid's role was to help cut through the uncertainty and guide decision-makers toward the best long-term outcome.

#### **Northern Territory Government New Data Centre**

Disaster recovery, designed for resilience and ready for growth.

#### **MCG Sports Lighting Upgrade**

Future-ready lighting for Australia's most iconic stadium.

#### **Payinthi – Community Hub, Library and Civic Centre**

A multi-purpose civic precinct blending heritage, innovation and community connection.

[lucidconsulting.com.au/our-projects](http://lucidconsulting.com.au/our-projects)

# Experience Highlights

#### **QEII Hospital Expansion – HCD546**

Enabling better care through smarter, future-ready infrastructure.

#### **Whyalla Secondary College**

A next-generation learning environment supporting regional education and community opportunity.

#### **Thomas Foods International – Processing Facility**

Engineering high-efficiency, high-welfare, meat processing infrastructure for Australia's largest family-owned protein producer.

Better thinking for a better world

Marryatville High School

# Our purpose in action

At Lucid, creating a better world isn't just a statement – it's the reason we exist. It shapes how we think, how we work, and the decisions we make every day. It connects our strategy to our values, and our work to the communities and environments we serve.

Whether we're designing complex infrastructure, enabling more sustainable buildings, or supporting long-term transformation, we start by asking: What's the long-term impact? This mindset drives us to challenge assumptions, act responsibly, and deliver solutions that contribute lasting value.

# We focus our efforts where we can make the greatest difference.

## Reconciliation

We are committed to meaningful progress with First Nations communities. Our Reflect RAP formalises this commitment, focusing on cultural understanding, Indigenous partnerships, and respectful practices across all areas of our business.

## Gender Equity

Equity at Lucid means creating space for everyone to thrive. From inclusive hiring to Women@Lucid and structured leadership pathways, we're building a culture that elevates diverse voices and removes barriers to opportunity.

## Decarbonisation

As a certified carbon neutral business, we're committed to reducing our footprint and helping clients do the same. Lucid is targeting a 50% emissions cut by 2030 and 75% by 2043. Our teams design low-carbon, future-ready solutions, and continue to embed sustainable thinking into every stage of our work.
